

WEB Program – Where Everyone Belongs Post Middle School

WEB stands for “Where Everyone Belongs”.

WEB was implemented based on family feedback in regards to the transition to middle school.

The goal of WEB is to help with the transition to middle school for incoming 6th graders.

The 2022-2023 school year was the first year of WEB implementation and we are excited to use all that we learned going into the 2nd year.

WEB allows 8th grade mentors to work with 6th grade students throughout the year.
